

12x 60W RGBL LED PAR with Zoom

## PRELIMINARY DATA SHEET

#### **KEY FEATURES**

(12) 60W RGBL LED Array
7000+ Lumens, (TBD) CRI
5°- 42° Beam Angle
Smooth 16-bit Selectable Dimming Modes and Curves
Remote LED Refresh Rate
Flicker Free Operation for TV and Film
IP65 Rated

The **LIMELIGHT PAR L** is a full-sized and robust LED fixture that offers a high quality of light and high output with its RGBL engine and efficient zoom lens optic. It's IP65 rating allows it to be used in any environment, indoors or out.

The **LIMELIGHT PAR L** engine features (12) 60W RGBL LED's, capable of producing 7000+ lumens, provides high output for saturated color mixing, and the wide color spectrum and high CRI needed for the quality of light that key and fill light applications require. The newly designed optical system allows for a highly homogenized output with even color and light distribution throughout the beam. The fixture also features a wide zoom range from 5° to 42°. The smooth and responsive effect provides a well-defined narrow beam for mid-air effects and long throw distances as well as a wide and even wash coverage at shorter distances. The LEDs can be controlled in two separate zones for additional eye candy effects.

To expand the control capabilities on the **LIMELIGHT PAR L**, precise color temperature control via a dedicated variable CCT control channel has been integrated. A CMY emulation mode has also been added for users that are more familiar with that color mixing system. Furthermore, an integrated library of calibrated color presets that match the most popular gel filters has been included. The IP65 housing includes an integrated gel frame holder that can accommodate optional accessories. The dual yoke design allows the fixture to be mounted on the floor or it can be easily rigged to hang with a c-clamp or by using the included omega bracket receiver. The **LIMELIGHT PAR L** is the ideal solution for Touring Applications, Theme Parks, Live Events, Theater, Houses of Worship and Cruise ships.
